

**FOR IMMEDIATE RELEASE**

**RFGen Software – Now Certified for Integration with SAP® solutions!**

**EL DORADO HILLS, CA – October 25, 2004** – DataMAX Software Group, Inc., a leader in Automated Data Collection Software Development Systems with over 2,000 installations worldwide, has announced integration certification of its “RFGen Software” Release 3.2 by SAP AG, provider of ERP systems. RFGen Software works in conjunction with data collection equipment manufactured by Intermec, Symbol, Psion-Teklogix, LXE, PSC, Unitech, Denso, and most other data collection equipment lines. RFGen applications run on both character and GUI based handheld terminals; wireless, batch and mobile applications are supported. With RFGen, users of SAP® solutions can discover, manage, integrate and actually embed Business Object Repository API’s into their Windows based data collection processing flows.

DataMAX, with its’ **RFGen Family Of Products**, “RFGen Enterprise Server, RFGen Xpress Server, RFGen Legacy Screen Mapping, RFGen Integration Suite for SAP solutions, and RFGen Integration Suite for PeopleSoft” continues to be a leading “data collection rapid application development software” supplier Worldwide. The DataMAX RFGen series is the most flexible application development system in the market today, with its hardware independence and its ability to connect to any ODBC-compliant database, legacy system (3270/5250/VT220), and now the world’s leading ERP system from SAP. With RFGen, users of SAP solutions now have the ability to easily build and support custom data collection applications ... ones that match their exact needs!
