FOR IMMEDIATE RELEASE

RFgen Software – Donaldson Filters Selects **RFgen** for JD Edwards Data Collection

EL DORADO HILLS, CA – November 1, 2006 – The DataMAX Software Group, Inc., a leader in Automated Data Collection Software with over 2,000 installations worldwide, has announced **Donaldson Filters selected RFgen JD Edwards Integration Suite** for their data collection requirements. Headquartered in Minneapolis, MN, Donaldson is a leading worldwide provider of filtration systems and replacement parts. Since 1915, they have perfected and leveraged their core strengths - innovative technology, strong customer relationships and broad geographic presence - to meet the diverse and changing needs of their customers in the Americas, Asia, Europe and Africa.

Donaldson was seeking a Data Collection solution for their New South Wales, Australia facility that could be easily and seamlessly integrated to their existing **JD Edwards EnterpriseOne ERP** system. The **RFgen JD Edwards Open Source Transactions** especially intrigued them. They were able to take advantage of our “Out of the Box” solutions and rapid application development. The fact that RFgen does not require any code changes to the ERP system was also important to Donaldson. This unique approach was desirable for Donaldson who sought to increase productivity and accuracy while obtaining a **lower Total Cost of Ownership** when compared to other solutions available for JD Edwards data collection.

About the DataMAX Software Group, Inc.

In business since 1983, software from the DataMAX Group has a proven track record of success when it comes to designing, implementing and deploying wireless and mobile solutions. RFgen enabled solutions can be found in over half of all Fortune 100 manufacturing companies as well as in numerous mid-level and smaller enterprises. DataMAX's flagship product, the RFgen Framework, is a system for delivering wireless and mobile automated data capture solutions. Whether the target is distribution, manufacturing, retail, agriculture, pharmaceuticals, healthcare, or something else, RFgen is flexible enough to meet your unique requirements. A Certified Oracle, SAP and Microsoft Partner, DataMAX is a leading provider of Automated Data Collection Software Solutions, Transaction Suites, and Services to major corporations in the United States, Europe, and Asia. RFgen Software is installed and supported worldwide by 125+ associated resellers and partners.
