FOR IMMEDIATE RELEASE

RFgen Software – Orcon Corporation Selects **RFgen** for JD Edwards Data Collection

EL DORADO HILLS, CA – January 1, 2007 – The DataMAX Software Group, Inc., a leader in Automated Data Collection Software with over 2,000 installations worldwide, has announced **Orcon Corporation selected RFgen JD Edwards Integration Suite** for their data collection requirements. Headquartered in Union City CA, Orcon Corporation is a premier supplier of reinforced films, tapes, and thermal/acoustic insulation components and fabricated systems for aerospace, transportation and industrial markets. Committed to providing unique products with superior quality and responsive customer service, Orcon is dedicated to serving the industry with on-time delivery and has a no-nonsense approach to business.

Orcon was using RFgen's General Connectivity solution for a non-ERP system, they then upgraded to the RFgen JD Edwards Integration Suite for use with their **JD Edwards World ERP** system. The **RFgen JD Edwards Open Source Transactions** especially intrigued them. They were able to take advantage of our "Out of the Box" solutions for: Standard Inventory, Pick Pack Ship and Receiving. The fact that RFgen does not require any code changes to the ERP system was also important to Orcon. This unique approach was desirable for Orcon who sought to increase productivity and accuracy while obtaining a **lower Total Cost of Ownership** when compared to other solutions available for JD Edwards data collection.

About the DataMAX Software Group, Inc.

In business since 1983, software from the DataMAX Group has a proven track record of success when it comes to designing, implementing and deploying wireless and mobile solutions. RFgen enabled solutions can be found in over half of all Fortune 100 manufacturing companies as well as in numerous mid-level and smaller enterprises. DataMAX's flagship product, the RFgen Framework, is a system for delivering wireless and mobile automated data capture solutions. Whether the target is distribution, manufacturing, retail, agriculture, pharmaceuticals, healthcare, or something else, RFgen is flexible enough to meet your unique requirements. A Certified Oracle, SAP and Microsoft Partner, DataMAX is a leading provider of Automated Data Collection Software Solutions, Transaction Suites, and Services to major corporations in the United States, Europe, and Asia. RFgen Software is installed and supported worldwide by 125+ associated resellers and partners.
