RFgen Software – Cornerstone R&D Selects **RFgen** for JD Edwards Data Collection

EL DORADO HILLS, CA – January 30, 2007 – The DataMAX Software Group, Inc., a leader in Automated Data Collection Software with over 2,000 installations worldwide, has announced **Cornerstone Research and Development selected RFgen JD Edwards Integration Suite** for their data collection requirements. Located in Farmington UT, Cornerstone R&D operating from a high-volume manufacturing and packaging facility with over 100,000 square feet of space, and growing, producing the world's highest quality natural healthcare supplements and food products to meet customer's standards. Cornerstone offers full microbial and analytical laboratories for testing incoming raw materials and finished product, as well as cutting-edge capabilities in the areas of encapsulating, tableting, and herbology. With credentials and expertise that is unsurpassed in the industry.

Cornerstone R&D was seeking a Data Collection solution that could be easily and seamlessly integrated to their existing **JD Edwards World ERP** system. The **RFgen JD Edwards Open Source Transactions** especially intrigued them. They were able to take advantage of our “Out of the Box” solutions for: PO Receipt, Receipt Routing, Inventory Transfers, WO Issues, WO Tracking, WO Completions, Pick Pack Ship, Item/Location Inquiry, Cycle Counting, Ship Confirm and Container / Pallet Management. The fact that RFgen does not require any code changes to the ERP system was also important to Cornerstone. This unique approach was desirable for Cornerstone who sought to increase productivity and accuracy while obtaining a **lower Total Cost of Ownership** when compared to other solutions available for JD Edwards data collection.

About the DataMAX Software Group, Inc.

In business since 1983, software from the DataMAX Group has a proven track record of success when it comes to designing, implementing and deploying wireless and mobile solutions. RFgen enabled solutions can be found in over half of all Fortune 100 manufacturing companies as well as in numerous mid-level and smaller enterprises.
